 Benedic Zucchi Architect, BDP

Announcing the Americas' Best Property Professionals...

We are delighted to celebrate the presentations of the Americas' Property Awards on the beautiful island of Barbados this year. This prestigious event also serves to promote investment in the region and is sponsored by Barbados Tourism Investment (BTI) and Berger Paints.

The Americas is the third section to be judged within the prestigious International Property Awards' programme and I'm pleased to say that we continue to be amazed at the quality of excellence shown by entrants.

Judging is carried out through a meticulous process involving a panel of over 80 experts covering every aspect of the property business. The panel is chaired by two peers from UK Parliament who oversee different categories – Lord Caithness for development and Lord Best for real estate.

The judges not only look for the most impressive and innovative projects, they also examine the sustainability and eco-friendliness of every property and development that comes under their scrutiny. While proving functional and practical for their occupants' use, interior design projects have to be injected with that all-important 'wow-factor'. Customer service and related services are key elements for success in the real estate agency categories. We look for outstanding customer support and a wide range of property-related services to guide clients through every aspect of the buying and selling processes.

Each and every one of the award-winning companies listed in this publication has demonstrated exemplary levels of expertise by competing against exceedingly strong competition from within the length and breadth of the Americas. Many congratulations to all.

Helen Shield

Editor-in-Chief, International Property & Travel Magazine
