

BEDROOM

VINCERE, LTD.

Michael Stornello and Tom Konopiots, principals at Vincere, Ltd., envisioned an elegant urban retreat for the bedroom of DreamHome. The design team wanted the room to be sophisticated, warm, cozy and inviting. Stornello and Konopiots judiciously combined traditional and unexpected fabrics with elegant case pieces, upholstered walls and stunning seating to create a peaceful, welcoming sanctuary. The chinoiserie lacquered wallpaper in the writing room was custom-made and provides a glamorous yet complementary counterpoint to the bedroom, while the unique and refined mix of art, comfort, beauty, function and furniture in old and new styles make this bedroom a fully livable environment.
